Preamble

Purpose

At Crownstone Constructions Pvt Ltd, we believe Commitment towards betterment of society is an integral part of our journey. As a responsible corporate citizen, We believe that gratitude towards society is much bigger than supporting the good causes. It includes the work that impacts people and the quality of their life positively by achieving inclusive growth and contributing towards empowering the communities. It is a way of giving back something to the society with gratefulness which has the considerable positive impact and which will create sustainable social value. We are committed towards responsible business practices as well as sustainable development. We also consider the importance of environment and natural resources. We want the community/ies in the neighborhood to be benefited from our very presence.

Policy Statement

For us, Corporate Social Responsibility (CSR) is not a just a legal compliance, it is an integral part of our journey in this society. Our goal is to achieve sustainable and inclusive growth of community through our CSR initiatives.

By understanding the demographic dividend of India, we initiate our CSR on such grounds, where we can contribute in best way through our core competencies. Our efforts are aimed for better education, development and empowerment of future citizens of the nation. We would like to initiate and implement series of various interrelated and interconnected sustainable programs and projects. Our projects will be in the domain of education, health, hygiene, environment and safety, emphasizing socially and economically underprivileged school children and institutions related to them.

We shall integrate the culture of volunteering to leverage the managerial and technological core competency we possess as a company.

Our CSR activities are included but not limited to following focus areas:

1. Science, Technology, Education and Mathematics Education and Awareness among government school students.

This focused area is one of the areas specified under Section 135, Schedule VII (ii) of Companies Act, 2013

2. Infrastructural and Intellectual support towards health, hygiene and sanitation facilities of beneficiaries. (falls under the purview of Schedule VII (i) of *Companies Act, 2013*.)
3. Preservation of environment and natural resources.
4. Neighborhood projects as per local needs

Broad Objectives of our CSR Activities.

- To facilitate and provide enhanced eco system for quality public education for socially and economically underprivileged children focusing on STEM – Science Technology Education and Mathematics
- To provide support to children to enhance hygiene and sanitary infrastructure.
- To provide necessary health assistance and education with respect to the preventive health care targeting behavior change of beneficiaries.
- To conserve and enrich of ecosystem of environment and natural resources
- To give boost for young talent by providing skill based vocational trainings to improve the employability
- To do a socially impactful intervention in neighborhood areas

Defining the ultimate population

Focused segments of population for our CSR initiatives are

- Underprivileged school children who are of in need of necessary basic educational and health facilities
- Youth who are away from livelihood opportunities due to lack of skills and vocational trainings
- Communities situated at operational region of our business.

Guiding Principles

Our focus is based on the following criteria:

- Scenario of need

Our social initiatives are guided by the scenario of the need of the society around our operational region.

- Sustainability element

Sustainability of the project gives a better positive outcomes and it enables better evaluation of initiatives.

- Employee Volunteering Program

We support in the volunteering program of employees in our CSR projects by giving them necessary skills to run the activities. Volunteers will add value by sharing their knowledge, experience and expertise in specific domains, thereby adding uniqueness to the programs.

Thrust Area

To achieve the maximum positive change and to generate maximum social value by employing limited available resources. We will focus on specific following mentioned areas of interventions:

- a. Child and Girl's Education, Health and Hygiene.
- b. Quality education and supporting infrastructure for schools
- c. Vocational training focused on employable skills.
- d. Sustainable environment and preservation of natural resources
- e. Neighborhood projects as per the local needs identified in nearby operational areas.

- Education Program

This program concentrates on project to improve student's educational performance by providing them their educational needs in a way of Infrastructure Support as well as

Intellectual Support. Projects also focus on providing experiential learning in the subject of Science Technology Education and Mathematics.

- Health Program

This program will consist of various projects concentrating on various health issues of school children focusing on their physical, mental health, nutrition and awareness about health and hygiene aiming to improve health indicators as well as reducing school dropout and boost overall performance of students.

- Skill development and employability enhancement

This program shall focus on making available various opportunities to learn vocational skills to unskilled or semiskilled youth. It will help to improve their employability and it will lead them to update skills with new technologies. By imparting industry-relevant skills to the needy youth, the objective is to help this group to access suitable employment.

- Preservation of Environment and Natural Resources

In the era of climate change and global warming we understand our responsibility towards preserving our environment and natural resources. Our programs and projects will undertake the strategic and long term sustainable activities, to maintain the clean environment through tree plantation, harvesting of water and preserving other natural resources.

- Neighbour-hood projects as per local needs

This program will be related to various rural and community development projects focusing on engagement with neighbour-hood communities in operational areas.

Scope

Our CSR policy will apply to all projects/programs initiated as a part of Corporate Social Responsibility activities. Policy is developed, and would be reviewed, and updated as per the requirement and determined procedure and process. The policy is in compliance with

the Companies Act, 2013, Schedule VII of the Act and the Rules made there under, as amended from time to time.
